LAUNCH REPORT

FEBRUARY LAUNCH REPORT

PHOENIX MISSILE WORKS

TRA #81 NAR #682

SATURDAY 3/28/ 2009

COMMERCIAL LAUNCH

We only had 2 flights on Saturday. The UAH Charger Rocket Works team headed by Marlow Moser were testing their USLI rocket, Osprey First flight was on a K828 for a low altitude test. Appox. 2700 ft. Then they flew to 4899 feet on a L850. A little short of the mile that is needed but the wind was fierce.

Team members were Eddie Jeffries, Brandon Wall, Derrick Moore, David Agnew, Zak Johnson, Brett Seymour, Christopher McCarley and Leslie Bunt. Good luck guys at Bragg Farms.
